UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

Introduction

The following discussion presents an overview of the financial position and financial activities of the University of South Alabama (the University), including the University of South Alabama Health System (the Health System), a division of the University, at September 30, 2016 and 2015 and for the years then ended. This discussion has been prepared by University management and should be read in conjunction with the financial statements and notes thereto, which follow.

The basic financial statements of the University consist of the University and its component units. The financial position and results of operations of the component units are either blended with the University's financial position and results of operations or are discretely presented. The treatment of each component unit is governed by pronouncements issued by the Governmental Accounting Standards Board (GASB). As more fully described in note 1 to the basic financial statements, the University of South Alabama Professional Liability Trust Fund, the University of South Alabama General Liability Trust Fund, the University of South Alabama Health Services Foundation and the USA HealthCare Management, LLC are reported as blended component units. The University of South Alabama Foundation, the USA Research and Technology Corporation, and the Gulf Coast Regional Care Organization are discretely presented.

As more fully described in note 1 to the basic financial statements, effective July 1, 2016, all operations of the USA Health Services Foundation were transferred to the University. University net position at September 30, 2015 was restated to reflect the cumulative effect of this change in reporting entity. The University's 2016 condensed financial statements include the financial position and results of operations of USA Health Services Foundation. Such amounts are not included in the 2015 condensed financial statements.

Financial Highlights

At September 30, 2016 and 2015, the University had total assets and deferred outflows of \$1,184,911,000 and \$1,114,951,000, respectively; total liabilities and deferred inflows of \$966,917,000 and \$919,899,000, respectively; and net position of \$217,994,000 and \$192,089,000, respectively. Net position increased \$25,905,000 during the year ended September 30, 2016 compared to an increase of \$9,239,000 for the year ended September 30, 2015.

An overview of each statement is presented herein along with financial analysis of the transactions impacting each statement. Where appropriate, comparative financial information is presented to assist in the understanding of this analysis.

Analysis of Financial Position and Results of Operations

Statement of Net Position

The statement of net position presents the assets, deferred outflows, liabilities, deferred inflows and net position of the University at September 30, 2016. Net position is displayed in three parts: net investment in capital assets, restricted and unrestricted. Restricted net position may either be expendable or nonexpendable and is the net position that is restricted by law or external donors. Unrestricted net position is generally designated for specific purposes, and is available for use by the University to meet current expenses for any purpose. The statement of net position, along with all of the University's basic financial statements, are prepared under the economic resources

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

measurement focus and the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred by the University, regardless of when cash is exchanged.

Assets included in the statement of net position are classified as current or noncurrent. Current assets consist primarily of cash and cash equivalents, investments, and net patient accounts receivable. Of these amounts, cash and cash equivalents, investments, and net patient accounts receivable comprise approximately 37%, 31% and 18%, respectively, of current assets at September 30, 2016. Noncurrent assets at September 30, 2016 consist primarily of capital assets, restricted cash and cash equivalents, and restricted investments.

The condensed schedules of net position at September 30, 2016 and 2015 follow (in thousands):

Condensed Schedules of Net Position

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

Total assets and deferred outflows of the University as of September 30 are as follows:

Net position represents the residual interest in the University's assets after liabilities are deducted. Net position is classified into one of four categories:

Net investment in capital assets represents the University's capital assets less accumulated depreciation and outstanding principal balances of the debt attributable to the acquisition, construction, or improvement of those assets.

Restricted nonexpendable net position consists primarily of the University's permanent endowment funds. In accordance with the policies of the University, the earnings from these funds may be expended, but the corpus may not be expended and must remain intact with the University in perpetuity.

Restricted expendable net position is subject to externally imposed restrictions governing their use. The funds are restricted primarily for debt service, capital projects, student loans, and scholarship purposes.

Unrestricted net position represents amounts not subject to externally imposed stipulations. Even though these funds are not legally restricted, the majority of the University's unrestricted net position has been internally designated for various projects, all supporting the mission of the University. Unrestricted net position includes funds for various academic and research programs, auxiliary operations (including the bookstore, student housing and dining services), student programs, capital projects and general operations. Also included in unrestricted net position at September 30, 2016 and 2015 is the impact of the net pension liability recorded pursuant to the requirements of GASB Statement No. 68.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

Net position of the University as of September 30 is as follows:

All categories of restricted net position increased by approximately 1% in fiscal year 2016, primarily due to the addition of restricted gifts to the University. Unrestricted net position decreased by \$1,439,000 in fiscal year 2016 due primarily to the increase in unfunded pension liability. A summary of unrestricted net position at September 30, 2016 is summarized below:

Unrestricted net position related to net pension liability	\$ (329,294,000)
Unrestricted net position related to other activity	172,809,000
Unrestricted net position	\$ <u><u>(156,485,000)</u></u>

Statement of Revenues, Expenses, and Changes in Net Position

Changes in total University net position are based on the activity presented in the statement of revenues, expenses, and changes in net position. The purpose of this statement is to present the change in net position resulting from operating and nonoperating revenues earned by the University, and operating and nonoperating expenses incurred by the University, as well as any other revenues, expenses, gains, and losses earned or incurred by the University.

Generally, operating revenues have the characteristics of exchange transactions and are received or accrued for providing goods and services to the various customers and constituencies of the University. These include hospital patient care services, tuition and fees (net of scholarship discounts and allowances), most noncapital grants and contracts, revenues from auxiliary activities and sales and services of educational activities (primarily athletic activities). Operating expenses are those expenses paid or incurred to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the University.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

Nonoperating revenues have the characteristics of non-exchange transactions and are revenues generally earned for which goods and services are not provided, such as investment income, capital appropriations, gifts and other contributions. State appropriations are required by GASB to be classified as nonoperating revenues. Nonoperating expenses are those expenses required in the operation and administration of the University, but not directly incurred to acquire or produce the goods and services provided in return for operating revenues. Such nonoperating expenses include interest on the University's indebtedness and losses related to the disposition of capital assets.

The condensed schedules of revenues, expenses, and changes in net position for the years ended September 30, 2016 and 2015 follow (in thousands):

**Condensed Schedules of Revenues, Expenses,
and Changes in Net Position**

	2016	2015
Operating revenues:		
Tuition and fees	\$ 137,074	120,265
Net patient service revenue	360,657	271,655

Other, net	8,135	13,259
Net nonoperating revenues and expenses	115,790	106,515
Income before capital appropriations, capital contributions, grants, and additions to endowment	16,384	2,008
Capital appropriations, capital contributions, grants, and additions to endowment	9,521	7,231
Increase in net position	25,905	9,239
Beginning net position, before cumulative effect of change in reporting entity/ accounting principle	195,052	499,550
Cumulative effect of change in reporting entity/accounting principle	(2,963)	(313,737)
Beginning net position – as adjusted	192,089	185,813
Ending net position	\$ 217,994	195,052

Approximately 47% and 39% of total revenues of the University were net patient service revenue in 2016 and 2015, respectively. Excluding net patient service revenue, net tuition and fees charged to students represent the

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

largest component of total University revenues, approximately 17% of total revenues in 2016. Also in 2016 and 2015, respectively, state appropriations and grants and contracts (federal, state and private) represented approximately 19% and 15% of total revenues.

A summary of University revenues for the year ended September 30, 2016 is presented below:

Tuition and fees have increased in each of the last ten years. These increases are due primarily to increases in tuition and fee rates charged to students and the number of enrolled students and credit hours taken by those students. Additionally, net tuition and fees as a percent of total operating revenues continue to increase, from 13% of operating revenues in 2007 to 22% in 2016. Tuition and fees, gross and net of scholarship allowances, for the past ten fiscal years are as follows:

Tuition and Fee Revenue
In Millions

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

Capital contributions and grants increased from \$2,784,000 in 2015 to \$3,053,000 in 2016.

University expenses are presented using their natural expense classifications. A summary of University expenses for the year ended September 30, 2016 is presented below:

Functional classifications represent expenses categorized based on the function within the University. Such University functions include instruction, research, public service, academic support, student services, institutional support, scholarships, and operation and maintenance of plant. Expenses related to auxiliary enterprise activities and the Health System are presented separately. Functional expense information is presented in note 17 to the basic financial statements.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

In 2016 and 2015, approximately 64% and 62%, respectively, of the University's total operating expenses were salaries and benefits.

For the years ended September 30, 2016 and 2015, the University reported operating losses of approximately \$99,406,000 and \$104,507,000, respectively. Operating losses are offset partially by state appropriations, which are reported as nonoperating revenue. After adding state appropriations and other nonoperating revenues and expenses (primarily capital appropriations, capital contributions, and additions to endowment), and applying the cumulative effect of the change in reporting entity related to the transfer of the Health Services Foundation (HSF), the total change in net position was approximately \$22,942,000 and \$(304,498,000), for the years ended September 30, 2016 and 2015, respectively. The decrease in net position in 2015 was a result of the implementation of GASB Statement No. 68.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

The Health System represents a significant portion of total University revenues. The large increase in net patient service revenue from 2015 to 2016 is due to the transfer of HSF operations to the University. Operating patient service revenues, gross and net, for the last ten fiscal years are presented below.

Statement of Cash Flows

The statement of cash flows presents information related to cash flows of the University. This statement presents cash flows by category: operating activities, noncapital financing activities, capital and related financing activities and investing activities. The net cash provided to, or used by, the University is presented by category.

Capital Assets and Debt Administration

Total capital asset additions for the University were approximately \$78,688,000 in 2016. Significant construction projects that remain in progress at September 30, 2016 include a new professional medical office building, a medical office building in Fairhope, Alabama and a major upgrade of infrastructure on the University's main campus. Major projects completed and placed into service in fiscal 2016 included the Student Health Center and an addition to the Mitchell Cancer Institute. At September 30, 2016, the University had outstanding commitments of approximately \$10,867,000 for various capital projects.

In June 2015, the University issued the University Facilities Revenue Capital Improvement Bond, Series 2015, with a face value of \$6,000,000. The proceeds of this bond are being used to fund the acquisition of certain property and the construction of certain facilities to be used by the USA Mitchell Cancer Institute.

In September 2016, the University issued its University Facilities Revenue Refunding Bonds, Series 2016, with a face value of \$85,605,000. The proceeds from the series 2016 bonds were used to partially defease the Series 2008 bonds. The funds were deposited into escrow trust funds to provide for the subsequent repayment of the Series

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management's Discussion and Analysis (Unaudited)

September 30, 2016

2008 bonds when they are called in December 2018. Neither the assets of the escrow trust account, nor the defeased indebtedness is included in the accompanying statement of net position. The principal outstanding on all defeased bonds is \$93,540,000 at September 30, 2016. The refunding resulted in net present value savings of approximately \$15,016,000. The remaining defeased portion of the Series 2008 bonds at September 30, 2016 is \$5,565,000 and is included in current and noncurrent long-term debt on the accompanying statement of net position.

In order to realize debt service savings currently from future debt refunding, in January 2008, the University entered into a synthetic advance refunding of the outstanding Series 2004 and 2006 bonds. This transaction was effected through the sale of two swaptions by the University to the counterparty and resulted in an up-front payment to the University totaling \$9,328,000 in exchange for selling the counterparty the option to enter into interest rate swaps with respect to the Series 2004 and 2006 bonds. A portion of this payment was considered a borrowing and was included in the long-term debt of the University. The fair value component of the refunding associated with the swaps was considered an investment derivative and, as such, the change in the fair value component was reflected as a component of investment income (loss) in 2016 and 2015.

In December 2013, the counterparty exercised its option with respect to the 2004 swaption and forced the University into an underlying swap. The University refunded its Series 2004 bonds, and issued the 2014-A variable rate bond. As a result of the exercise of the option by the counterparty, the swaption was terminated and the borrowing arising from the Series 2004 swaption of \$1,696,000 and the investment derivative of \$5,213,000 were written off and an investment loss of \$2,229,000 was recognized. A borrowing arising from the 2014 swap of \$9,138,000 was recognized and is reported in the statement of net position at September 30, 2016.

In September 2016, the counterparty exercised its option with respect to the 2006 swaption and forced the University into an underlying swap. As a result of the exercise of the option by the counterparty, the swaption was terminated and the borrowing arising from the Series 2006 swaption of \$6,939,000 and the investment derivative of \$34,078,000 were written off. A borrowing arising from the 2016 swap of \$41,017,000 was recognized and is reported in the statement of net position at September 30, 2016.

The University's bond credit rating is A1 as rated by Moody's Investors Services and A+ as rated by Standard and Poor's Rating Services. Neither rating changed during 2016.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management’s Discussion and Analysis (Unaudited)

September 30, 2016

Economic Outlook

Student enrollment and tuition and fee rates have both increased over the past fifteen years. The University has experienced an increase in enrollment between 2002 and 2016, from 12,510 in 2002 to 16,699 for the 2016 Fall semester. The enrollment trend for the University between 2002 and 2016 is as follows:

During the same time period, in-state tuition per credit hour has increased by approximately 229%. The large increase in 2010 is the result of the University’s bundling of tuition and required fees into a single per-hour charge. Similar increases have been experienced in out-of-state tuition and College of Medicine tuition. The trend of in-state tuition per credit hour between 2002 and 2016 is as follows:

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Management’s Discussion and Analysis (Unaudited)

September 30, 2016

While enrollment and tuition have both increased in recent years, state appropriations prior to 2006 were relatively flat. However, in the 2006, 2007 and 2008 fiscal years, the University experienced increases of 16%, 19% and 17%, respectively, or approximately \$19,349,000, \$19,185,000 and \$14,581,000, respectively, in its state appropriation. These increases were unusually high. For the 2009 fiscal year, the University’s state appropriation decreased 13% or approximately \$17,882,000. Additionally, in December 2008 the Governor of Alabama announced proration of 9%, or approximately \$10,967,000; and in July 2009, the Governor announced additional proration of 2%, or approximately \$2,437,000.

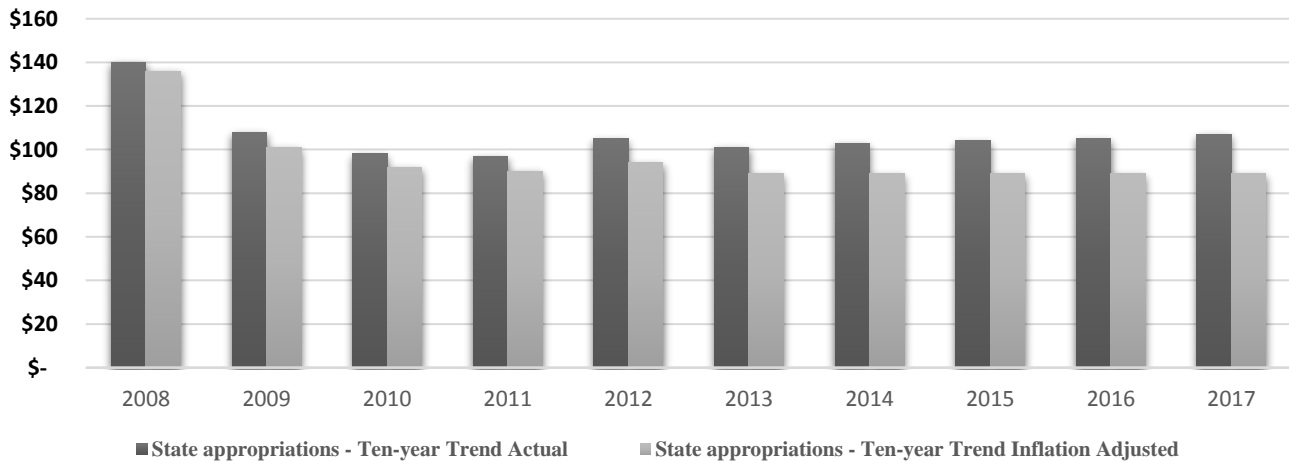

A state appropriation in the amount of approximately \$103,974,000 was authorized and received for the year ended September 30, 2015.

A state appropriation in the amount of approximately \$105,024,000 was authorized and received for the year ended September 30, 2016.

A state appropriation in the amount of approximately \$107,285,000 has been authorized for the year ending September 30, 2017. This represents a \$2,261,000 increase from the fiscal 2016 appropriation received. While no announcement has been made, the University is aware that reductions in the 2017 appropriation are possible.

The ten-year trend of state appropriations for the University is as follows:

State Appropriations - Ten-year Trend
In Millions

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)
Management's Discussion and Analysis (Unaudited)
September 30, 2016

In addition to state appropriations, the University is subject to declines in general economic conditions in the United States and, specifically, the State of Alabama. Further weakening of the economy could have a negative impact on the University's enrollment, extramural funding, endowment performance, and health care operations.

Other than the issues presented above, University administration is not aware of any other currently known facts, decisions, or conditions that are expected to have a significant effect on the University's financial position or results of operations during fiscal year 2017 beyond those unknown variables having a global effect on virtually all types of business operations.

Requests for Information

These basic financial statements are designed to provide a general overview of the University of South Alabama and its component units' financial activities and to demonstrate the University's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to G. Scott Weldon; Vice President for Finance and Administration; University of South Alabama – Administration Building Room 170; Mobile, Alabama 36688. These basic financial statements can be obtained from our website at <http://www.southalabama.edu/financialaffairs/businessoffice/statements.html>.

Jackson, MS 39201-2127

Independent Auditors' Report

The Board of Trustees
University of South Alabama:

Report on the Financial Statements

We have audited the accompanying financial statements of the University of South Alabama, a component unit of the State of Alabama, (the University) and its aggregate discretely presented component units, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the 2016 consolidated financial statements of the University of South Alabama Foundation, which represents 93%, 100%, and 52%, respectively, of the 2016 assets, net assets, and revenues, gains and other support of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the University of South Alabama Foundation, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the University of South Alabama Foundation, the University of South Alabama Health Services Foundation, the USA Research and Technology Corporation, the Gulf Coast Regional Care Organization, and the Professional and General Liability Trust Funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the University and of its aggregate discretely presented component units as of September 30, 2016, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matters

As discussed in note 1(z) to the basic financial statements, in 2016, the University adopted Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurement and application*. Our opinion is not modified with respect to this matter.

As described in note 1(d), beginning in fiscal 2016, the USA Health Services Foundation met the criteria for blended component unit presentation. The cumulative effect of this change in reporting entity resulted in a decrease in net position as of October 1, 2015 of (\$2,963,000).

Other Matters

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 1-13 and the schedule of the University's proportionate share of the net pension liability and schedule of University's contributions on pages 64 and 65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2016 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(1) Summary of Significant Accounting Policies

(a) Reporting Entity

The accompanying basic financial statements present the financial position and activities of the University of South Alabama (the University), which is a component unit of the State of Alabama. The financial statements of the University present the financial position, changes in financial position and, where applicable, cash flows of only that portion of the basic financial statements and the aggregate discretely presented component units of the State of Alabama that is attributable to the transactions of the University.

The financial reporting entity, as defined by Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, consists of the primary government and all of its component units. Component units are legally separate organizations for which the primary government is financially accountable. In addition, the primary government may determine, through exercise of management's professional judgment, that the inclusion of an organization that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading. In such instances, that organization is included as a component unit. Accordingly, the basic financial statements include the accounts of the University, as the primary government, and the accounts of the entities discussed below as component units.

The University has adopted GASB Statement No. 61, which amends GASB Statements No. 14 and No. 39, and provides criteria for determining whether certain organizations should be reported as component units based on the nature and significance of their relationship with the primary government. Such criteria include the appointment of a voting majority of the board of the organization, the ability to impose the will of the primary government on the organization and the financial benefits/burden between the primary government and the potential component unit. The statement also clarifies reporting and disclosure requirements for those organizations. Based on these criteria as of September 30, 2016, the University reports the University of South Alabama Foundation (USA Foundation), the USA Research and Technology Corporation (the Corporation), and the Gulf Coast Regional Care Organization (RCO) as discretely presented component units.

The University is also affiliated with the South Alabama Medical Science Foundation (SAMSF). This entity is not considered a component unit of the University under the provisions of GASB Statements No. 14, 39 and 61 because the University does not consider SAMSF significant enough to warrant inclusion in the University's reporting entity (see note 15 for further discussion of this entity).

GASB Statement No. 61 requires the University, as the primary government, to include in its basic financial statements, as a blended component unit, organizations that, even though they are legally separate entities, meet certain requirements as defined by GASB Statement No. 61. Based on these criteria, the University reports the Professional Liability Trust Fund, the General Liability Trust Fund, the USA HealthCare Management, LLC, and the USA Health Services Foundation (USAHSF) as blended component units. All significant transactions among the University and its blended component units have been eliminated.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(b) *USA HealthCare Management, LLC*

In June 2010, the University's Board of Trustees approved the formation of USA HealthCare Management, LLC (HCM). HCM was organized for the purpose of managing and operating on behalf of, and as agent for, substantially all of the health care clinical enterprise of the University. The University is the sole member of HCM. HCM commenced operations in October 2010 and is reported as a blended component unit (see note 18 for further discussion of, and disclosure for, this entity).

(c) *Professional Liability and General Liability Trust Funds*

The medical malpractice liability of the University is maintained and managed in its separate Professional Liability Trust Fund (the PLTF) in which the University, USAHSF, HCM and SAMSF are the only participants. In accordance with the bylaws of the PLTF, the president of the University is responsible for appointing members of the PLTF policy committee. Additionally, the general liability of the University, USAHSF, HCM, SAMSF and the Corporation is maintained and managed in its General Liability Trust Fund (the GLTF) for which the University, as defined by GASB Statement No. 18, is responsible. The PLTF and GLTF are separate legal entities which are governed by the University Board of Trustees through the University president. As such, PLTF and GLTF are reported as blended component units (see note 18 for further discussion of, and disclosure for, these entities).

(d) *University of South Alabama Health Services Foundation*

During fiscal 2016, due to the Board's approval of governance changes and assignment of operational responsibility to the University, the USA Health Services Foundation now meets the criteria for blended component unit presentation. The cumulative effect of this change in reporting entity resulted in a decrease to the beginning balance of the University's net position in the amount of (\$2,963,000). All transactions for the USA Health Services Foundation for fiscal year ended September 30, 2016 are blended in the University's financial statements.

(e) *University of South Alabama Foundation*

The USA Foundation is a not-for-profit corporation that was organized for the purpose of promoting education, scientific research, and charitable purposes, and to assist in developing and advancing the University in furthering, improving, and expanding its properties, services, facilities, and activities. Because of the significance of the relationship between the University and the USA Foundation, the USA Foundation is considered a component unit of the University. The Board of Directors of the USA Foundation is not appointed or controlled by the University. The University receives distributions from the USA Foundation primarily for scholarship, faculty and other support. Total distributions received or accrued by the University for the year ended September 30, 2016 were \$10,455,000, and are primarily included in other nonoperating revenues and capital contributions and grants in the University's statement of revenues, expenses, and changes in net position. The USA Foundation presents its financial statements in accordance with standards issued by the Financial Accounting Standards Board (FASB). The USA Foundation is reported in separate financial statements because of the difference in the financial reporting format since the USA Foundation follows FASB rather than GASB pronouncements. The USA Foundation has a June 30 fiscal year end which differs from the

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

University's September 30 fiscal year end. In accordance with GASB Statement No. 14, this discretely presented unit has been included with the most recent fiscal year. The accompanying consolidated statement of financial position and statement of activities and changes in net assets for the USA Foundation as of and for the year ended June 30, 2016 are discretely presented.

(f) USA Research and Technology Corporation

The Corporation is a not-for-profit corporation that exists for the purpose of furthering the educational and scientific mission of the University by developing, attracting, and retaining technology and research industries in Alabama that will provide professional and career opportunities to the University's students and faculty. Because of the significance of the relationship between the University and the Corporation, the Corporation is considered a component unit of the University. The Corporation presents its financial statements in accordance with GASB. The accompanying statement of net position and revenues, expenses and changes in net position for the Corporation are discretely presented.

(g) Gulf Coast Regional Care Organization

The RCO is a not-for-profit corporation that exists for the purpose of creating and operating a risk-based, community-led network to coordinate the health care of Medicaid patients in a seven county region of southwest Alabama, one of five such regions in the state of Alabama identified by the Alabama Medicaid Agency. The RCO commenced operations in April 2015 and is currently operating a Health Home program, providing certain case management services to qualifying Medicaid beneficiaries. Effective July 1, 2017, the Alabama Medicaid Agency plans to begin full operations for all Medicaid patients throughout the state. If it elects to participate in this program, the RCO will be responsible for the care of between 50% and 100% of all Medicaid patients in the region. Because of the significance of the relationship between the University and the RCO, the RCO is considered a component unit of the University. The RCO presents its financial statements in accordance with GASB. The accompanying statements of net position and revenues, expenses and change in net position for the RCO are discretely presented. See note 20 for further discussion.

(h) Measurement Focus and Basis of Accounting

For financial reporting purposes, the University is considered a special purpose governmental agency engaged only in business type activities, as defined by GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. Accordingly, the University's basic financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

(i) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that management make estimates and assumptions affecting the reported amounts

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

of assets and liabilities, revenues and expenses, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

In particular, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates related to these programs could change by a material amount in the near term.

(j) Cash and Cash Equivalents

Cash and cash equivalents are defined as petty cash, demand accounts, certificates of deposit, and any short-term investments that take on the character of cash. These investments have maturities of less than three months and include repurchase agreements and money market accounts.

(k) Investments and Investment Income

The University reports the fair value of investments using the three-level hierarchy established under GASB Statement No. 72, *Fair Value Measurement and Application*. The fair value of alternative investments (low-volatility multi-strategy funds of funds), do not have readily ascertainable market values and the University values these investments in accordance with valuations provided by the general partners or fund managers of the underlying partnerships or companies, typically based on net asset value (NAV) of the partnership or commingled vehicle. Because some of these investments are not readily marketable, the estimated fair value is subject to uncertainty and, therefore, may differ from the fair value that would have been used had a ready market for the investment existed. Investments received by gift are recorded at fair value at the date of receipt. Changes in the fair value of investments are reported in investment income (loss).

(l) Derivatives

The University has adopted the provisions of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. GASB Statement No. 53 establishes a framework for accounting and financial reporting related to derivative instruments, requiring the fair value of derivatives to be recognized in the basic financial statements.

The University entered into two interest rate swaptions in January 2008, the Series 2004 swaption and the Series 2006 swaption. As a result of entering into the swaptions, the University received up-front payments. Swaptions are considered hybrid instruments which are required to be bifurcated into the fair value of the derivative and a piece that reflects a borrowing for financial statement purposes, which will accrete interest over time.

In December 2013, the counterparty, Wells Fargo, exercised its option related to the Series 2004 swaption and, as a result, the University entered into an interest rate swap. As a result of the exercise of the option, the Series 2004 swaption was terminated. In March 2014, the University entered into an interest rate swap arrangement with a counterparty. The resulting derivative is a “receive-variable, pay-fixed” interest rate swap. The University pays the counterparty a fixed semi-annual payment based on an annual rate of 4.9753% and receives on a monthly basis a variable payment of 68% of the one-month London Interbank Offered Rate (LIBOR) plus 0.25%. The notional amount of the swap will at all times match the outstanding principal amount of the Series 2014-A bond. The change in the

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

fair value of the swap (\$609,000 at September 30, 2016) is reported as a deferred inflow and derivative asset on the 2016 statement of net position since the interest rate swap is a hedging derivative. See note 10 for further discussion.

In September 2016, the counterparty, Wells Fargo, exercised its option related to the Series 2006 swaption and, as a result, the University entered into an interest rate swap. As a result of the exercise of the option, the Series 2006 swaption was terminated. The resulting derivative is a “receive-variable, pay-fixed” interest rate swap. The University pays the counterparty a fixed semi-annual payment based on an annual rate of 5% and receives on a monthly basis a variable payment of 68% of the one-month London Interbank Offered Rate (LIBOR) plus 0.25%. The change in the fair value of the swap (\$637,000 at September 30, 2016) is reported as a deferred inflow and derivative asset on the 2016 statement of net position since the interest rate swap is a hedging derivative. See note 10 for further discussion.

(m) *Accounts Receivable*

Accounts receivable primarily result from net patient service revenue. Accounts receivable from affiliates primarily represent amounts due from the USA Foundation. Accounts receivable – other includes amounts due from students, the federal government, state and local governments, or private sources in connection with reimbursement of allowable expenditures made pursuant to the University’s grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

(n) *Inventories*

The University’s inventories primarily consist of bookstore inventories and medical supplies and pharmaceuticals. Bookstore inventories are valued at the lower of cost (moving average basis) or market. Medical supplies and pharmaceuticals are stated at the lower of cost (first-in, first-out method) or market.

(o) *Capital Assets*

Capital assets are recorded at cost, if purchased, or at fair value at date of donation. Depreciation is provided over the estimated useful life of each class of depreciable assets using the straight-line method. Major renewals and renovations are capitalized. Costs for repairs and maintenance are expensed when incurred. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and the gain or loss, if any, is included in nonoperating revenues (expenses) in the statement of revenues, expenses, and changes in net position.

All capital assets other than land are depreciated using the following asset lives:

Buildings, infrastructure and certain building components	40 to 100 years
Fixed equipment	10 to 20 years
Land improvements	8 to 20 years
Library materials	10 years
Other equipment	4 to 15 years

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Certain buildings are componentized for depreciation purposes.

Interest costs for certain assets constructed are capitalized as a component of the cost of acquiring those assets.

The University evaluates impairment in accordance with GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. For the year ended September 30, 2016, no impairments were recorded.

(p) *Unrecognized Revenue*

Student tuition, fees, and dormitory rentals are initially recorded as unrecognized revenue and then recognized over the applicable portion of each school term.

(q) *Cost Sharing Multi-Employer Pension Plan*

Employees of the University are covered by a cost sharing multiple-employer defined benefit pension plan administered by the Teachers' Retirement System of Alabama (TRS) (the Plan). The TRS financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenues when earned, pursuant to plan requirements. Benefits and refunds are recognized as revenues when due and payable in accordance with the terms of the plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the GASB. Under these requirements, the Plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report.

(r) *Classification of Net Position*

The University's net position is classified as follows:

Net investment in capital assets reflects the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such debt is excluded from the calculation of *net investment in capital assets*.

Restricted, nonexpendable net position consists of endowment and similar type funds which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted, expendable net position includes resources that the University is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

Unrestricted net position represents resources derived from student tuition and fees, state appropriations, net patient service revenue, sales and services of educational activities and auxiliary enterprises. Auxiliary enterprises are substantially self-supporting activities that provide services for

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

students, faculty, and staff. While unrestricted net position may be designated for specific purposes by action of management or the Board of Trustees, they are available for use at the discretion of the governing board to meet current expenses for any purpose. Substantially all unrestricted net position is designated for academic and research programs and initiatives, and capital programs.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University addresses each situation on a case-by-case basis prior to determining the resources to be used to satisfy the obligation.

(s) ***Scholarship Allowances and Student Financial Aid***

Student tuition and fees, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statement of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenues in the University's basic financial statements based on their classification as either an exchange or non-exchange transaction. To the extent that revenues from such programs are used to satisfy tuition and fees and certain other student charges, the University has recorded a scholarship discount and allowance.

(t) ***Donor Restricted Endowments***

The University is subject to the "Uniform Prudent Management of Institutional Funds Act" (UPMIFA) of the Code of Alabama. This law allows the University, unless otherwise restricted by the donor, to spend net appreciation, realized and unrealized, of the endowment assets. The law also allows the University to appropriate for expenditure or accumulate to an endowment fund such amounts as the University determines to be prudent for the purposes for which the endowment fund was established. The University's endowment spending policy provides that 5% of the three-year invested net asset moving average value (inclusive of net realized and unrealized gains and losses), as measured at September 30, is available annually for spending. The University's policy is to retain the endowment net interest and dividend income and net realized and unrealized appreciation with the endowment after distributions allowed by the spending policy have been made. These amounts, unless otherwise directed by the donor, are included in restricted, expendable net position.

(u) ***Classification of Revenues***

The University has classified its revenues as either operating or nonoperating revenues.

Operating revenues include activities that have the characteristics of exchange transactions such as student tuition and fees, net of scholarship discounts and allowances; sales and services of auxiliary enterprises, net of scholarship allowances; most federal, state, and local grants and contracts; and, net patient service revenue.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Nonoperating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources such as state appropriations and investment income.

(v) ***Gifts and Pledges***

Pledges of financial support from organizations and individuals representing an unconditional promise to give are recognized in the basic financial statements once all eligibility requirements, including time requirements, have been met. In the absence of such a promise, revenue is recognized when the gift is received. Endowment pledges generally do not meet eligibility requirements, as defined by GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*, and are not recorded as assets until the related gift has been received. Unconditional promises that are expected to be collected in future years are recorded at the present value of the estimated future cash flows.

(w) ***Grants and Contracts***

The University has been awarded grants and contracts for which funds have not been received or expenditures made for the purpose specified in the award. These awards have not been reflected in the basic financial statements, but represent commitments of sponsors to provide funds for specific research or training projects. For grants that have allowable cost provisions, the revenue will be recognized as the related expenditures are made. For grants with work completion requirements, the revenue is recognized as the work is completed. For grants without either of the above requirements, the revenue is recognized as it is received.

(x) ***Net Patient Service Revenue and Electronic Health Records Incentive Program***

Net patient service revenue is reported at estimated net realizable amounts due from patients, third-party payers and others for healthcare services rendered, including estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods, as adjustments become known or as years are no longer subject to such audits, reviews and investigations.

The Centers for Medicare and Medicaid Services (CMS) has implemented provisions of the American Recovery and Reinvestment Act of 2009 that provide incentive payments for the meaningful use of certified electronic health record (EHR) technology. CMS has defined meaningful use as meeting certain objectives and clinical quality measures based on current and updated technology capabilities over predetermined reporting periods as established by CMS. The Medicare EHR incentive program provides annual incentive payments to eligible professionals, and hospitals, that are meaningful users of certified EHR technology. The Medicaid EHR incentive program provides annual incentive payments to eligible professionals and hospitals for efforts to adopt, implement, and meaningfully use certified EHR technology. The Health System utilizes a grant accounting model to recognize EHR incentive revenues. EHR incentive revenue is recorded ratably throughout the incentive reporting period when it is reasonably assured that it will meet the meaningful use objectives for the required

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

reporting period and that the grants will be received. The EHR reporting period for hospitals is based on the federal fiscal year, which runs from October 1 through September 30.

The Health System recognized Medicare EHR incentive revenues of \$391,000 for the year ended September 30, 2016. EHR incentive revenues are included in other operating revenues in the accompanying statement of revenues, expenses and changes in net position.

(y) ***Compensated Absences***

The University accrues annual leave for employees as incurred at rates based upon length of service and job classification.

(z) ***Recently Adopted Accounting Pronouncements***

In 2016, the University adopted the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*. GASB Statement No. 72 provides hierarchical guidance for determining fair value measurement for assets and liabilities for financial reporting purposes and also provides guidance for required disclosure related to fair value measurements. See note 4 for a further discussion.

(2) Income Taxes

The University is classified as both a governmental entity under the laws of the State of Alabama and as a tax-exempt entity under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). Consistent with these designations, no provision for income taxes has been made in the accompanying basic financial statements.

In addition, the University's discretely presented component units are tax-exempt entities under Section 501(a) of the Internal Revenue Code as organizations described in Section 501(c)(3). Consistent with that designation, no provision for income taxes has been made in the accompanying discretely presented financial statements.

(3) Cash

Pursuant to the Security for Alabama Funds Enhancement Act, funds on deposit may be placed in an institution designated as a qualified public depository (QPD) by the State of Alabama. QPD institutions pledge securities to a statewide collateral pool administered by the State Treasurer's office. Such financial institutions contribute to this collateral pool in amounts proportionate to the total amount of public fund deposits at their respective institutions. The securities are held at the Federal Reserve Bank and are designated for the State of Alabama. Additional collateral was not required for University funds on deposit with QPD institutions. At September 30, 2016, the net public deposits subject to collateral requirements for all institutions participating in the pool totaled approximately \$10.7 billion. The University had cash and cash equivalents of \$119,082,000 at September 30, 2016.

At September 30, 2016, restricted cash and cash equivalents consist of \$1,584,000 related to cash included in the PLTF and GLTF to pay insurance liability claims, \$10,000,000 related to collateral requirements of the University, \$1,701,000 related to collateral requirements of HCM and \$5,642,000 of unspent proceeds from the issuance of University bonds for capital purchases as outlined in the bond indenture.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(4) Investments

(a) University of South Alabama

The investments of the University are invested pursuant to the University of South Alabama “Non-endowment Cash Pool Investment Policies,” the “Endowment Fund Investment Policy,” and the “Derivatives Policy” (collectively referred to as the University Investment Policies) as adopted by the Board of Trustees. The purpose of the non-endowment cash pool investment policy is to provide guidelines by which commingled funds not otherwise needed to meet daily operational cash flows can be invested to earn a maximum return, yet still maintain sufficient liquidity to meet fluctuations in the inflows and outflows of University operational funds. Further, endowment fund investment policies exist to provide earnings to fund specific projects of the endowment fund, while preserving principal. The University Investment Policies require that management apply the “prudent person” standard in the context of managing its investment portfolio.

The investments of the blended component units of the University are invested pursuant to the separate investment policy shared by the PLTF and GLTF (the Trust Fund Investment Policy.) The objectives of the Trust Fund Investment Policy are to provide a source of funds to pay general and professional liability claims and to achieve long-term capital growth to help defray future funding requirements. Additionally, certain investments of the University’s component units both blended and discretely presented are subject to UPMIFA as well as any requirements placed on them by contract or donor agreements.

Certain investments, primarily related to the University’s endowment assets, are pooled. The University uses this pool to manage its investments and distribute investment income to individual endowment funds.

Investments of the University, by type, at fair value, are as follows at September 30, 2016 (in thousands):

U.S. Treasury notes	\$	5,167
U.S. federal agency notes		104,895
Commingled equity funds		91,695
Commingled debt funds		37,439
Marketable equity securities		7,864
Real Estate		360
Managed income alternative investments (low-volatility multi-strategy funds of funds)		27,935
		27,935
	\$	275,355

At September 30, 2016, \$14,852,000 of cumulative appreciation in fair value of investments of donor-restricted endowments was recognized and is included in restricted expendable net position in the accompanying statement of net position.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Credit Risk and Concentration of Credit Risk

(i) Non-Endowment Cash Pool Investment Policy

The University Investment Policies limit investment in corporate bonds to securities with a minimum “A” rating, at the time of purchase, by both Moody’s and Standard and Poor’s. Investments in corporate paper are limited to issuers with a minimum quality rating of P-1 by Moody’s, A-1 by Standard and Poor’s or F-1 by Fitch.

Additionally, the University Investment Policies require that not more than 10% of the cash, cash equivalents and investments of the University be invested in the obligations of a single private corporation and not more than 35% of the cash, cash equivalents and investments of the University be invested in the obligations of a single government agency.

(ii) Endowment Fund Investment Policy

The University Investment Policies limit investment in fixed income securities to securities with a minimum “BAA” rating, at the time of purchase, by both Moody’s and Standard and Poor’s. Money Market Funds selected shall contain securities whose credit rating at the absolute minimum would be rated investment grade by Standard and Poor’s, and/or Moody’s. Investment in fixed income securities within the fixed income portfolio shall be restricted to only investment grade bonds rated “BAA” or higher. Any investment in below investment grade bonds shall be considered an equity or fixed income alternative investment.

Additionally, the University Investment Policies require that not more than 5% of the Endowment Fund assets of the University be allocated to an individual investment manager and no more than 25% of the Endowment Fund assets be allocated to a “Fund of Funds” or multi-manager fund.

The University’s exposure to credit risk and concentration of credit risk at September 30, 2016 is as follows:

	Credit rating	Percentage of total investments
Federal Home Loan Mortgage Corporation	AAA	2.6%
Federal Home Loan Bank Corporation	AAA	2.5
Federal National Mortgage Association	AAA	9.0
Common Fund Bond Fund	A+	11.6
PIMCO Pooled Bond Fund	BAA+/BAA/AA	2.0
Federal Farm Credit Banks Funding Corporation	AAA	23.9

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Interest Rate Risk

At September 30, 2016, the maturity dates of the University's debt investments were as follows (in thousands):

	Fair value	Years to maturity			
		Less than 1	1 – 5	6 – 10	More than 10
U.S. Treasury notes	\$ 5,167	3,953	1,214	—	—
U.S. federal agency notes	104,895	11,014	93,881	—	—
Commingled debt security funds	37,439	1,300	33,215	2,924	—
	<u>\$ 147,501</u>	<u>16,267</u>	<u>128,310</u>	<u>2,924</u>	<u>—</u>

Commingled debt security funds are classified based on the weighted average maturity of the individual investment instruments within each fund.

The University's Investment Policies do not specifically address the length to maturity on investments which the University must follow; however, they do require that the maturity range of investments be consistent with the liquidity requirements of the University.

Mortgage-Backed Securities

The University, from time to time, invests in mortgage backed securities such as the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), and other government sponsored enterprises of the United States government. The University invests in these securities to increase the yield and return on its investment portfolio given the available alternative investment opportunities.

Fair Value Measurement

Fair value measurements represent the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements date. The University of South Alabama measures and records its investments using fair value measurement guidelines established by GASB Statement No. 72. These guidelines prioritize the inputs of valuation techniques used to measure fair value, as follows:

- Level 1: Quoted prices for identical investments in active markets
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs

The level in the fair value hierarchy that determines the classification of an asset or liability depends on the lowest level input that is significant to the fair value measurement. Observable inputs are derived from quoted market prices for assets or liabilities traded on an active market where there is sufficient activity to determine a readily determinable market price. Investments that are not traded on an active exchange and do not have a quoted market price are classified as unobservable inputs. The University

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

of South Alabama's assets that have unobservable inputs consist of the investment in real estate with fair value based on an independent third party appraisal performed by qualified appraisers specializing in real estate investments. Other assets included in the University's investment portfolio with unobservable inputs are the shares or units in certain partnerships or other commingled funds that do not have readily determinable fair values. For these funds, fair value is estimated using the net asset value (NAV) reported by the investment managers as a practical expedient to fair value. Such investments have not been categorized within the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net position.

The following tables summarize the fair value measurements for all investment assets and liabilities carried at fair value as of September 30, 2016 (in thousands):

Description	Asset Fair value measurements at September 30, 2016			
	Level 1	Level 2	Level 3	Total
U.S. Treasury notes	\$ 5,167	—	—	5,167

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

A rollforward schedule of amounts for Level 3 financial instruments for the fiscal year ended September 30, 2016 is as follows:

Description	Real estate
Beginning balance	\$ 5,548
Total gains (losses) (realized/unrealized)	(940)
Sales	(4,248)
Ending balance	\$ 360

(b) University of South Alabama Foundation

Investments in securities consist primarily of equity securities totaling \$120,900,000 at June 30, 2016.

Investment income was comprised of the following for the year ended June 30, 2016 (in thousands):

Unrealized gains	\$ 844
Realized gains	1,972
Timber sales	2,685
Interest and dividends	2,131
Rents	627
Royalties	74
	\$ 8,333

Investment related expenses in the amount of \$324,000 are included in the USA Foundation's management and general expenses in the accompanying 2016 consolidated statement of activities and changes in net assets.

Real estate at June 30, 2016 consisted of the following property held (in thousands):

Land and land improvements – held for investment	\$ 67,935
Building and building improvements – held for investment	1,135
	\$ 69,070

Timber and mineral properties are stated at fair value. Depletion of mineral properties is recognized over the remaining producing lives of the properties based on total estimated production and current period production. Depletion of timber properties is recognized on a specific identification basis as

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

timber rights are sold or on a unit basis for sales made on that basis. Reforestation costs consisting of site preparation and planting of seedlings are capitalized.

Investments at June 30, 2016, include an equity interest in a timberland management company. The company's primary assets consist of timberland. The Foundation's proportionate share of the fair value of the company is based upon the valuation from the trustee responsible for the management of the company and the timber valuation.

The Foundation has adopted Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. ASC 820 provides a single definition of fair value and a hierarchical framework for measuring it, as well as establishing additional disclosure requirements about the use of fair value to measure assets and liabilities. Fair value measurements are classified as either observable or unobservable in nature. Observable fair values are derived from quoted market prices for investments traded on an active exchange or in dealer markets where there is sufficient activity and liquidity to allow price discovery by substantially all market participants (Level 1). The Foundation's observable values consist of investments in exchange-traded equity securities with a readily determinable market price. Other observable values are fair value measurements derived either directly or indirectly from quoted market prices (Level 2). Investments that are not traded on an active exchange and do not have a quoted market price are classified as unobservable (Level 3). The Foundation's unobservable values consist of investments in timber and real estate with fair values based on independent third-party appraisals performed by qualified appraisers specializing in timber and real estate investments.

The Foundation's investment assets at June 30, 2016, are summarized based on the criteria of ASC 820 as follows (in thousands):

Description	Fair value measurements at June 30, 2016			
	Level 1	Level 2	Level 3	Total
Equity securities	\$ 72,481	48,419	—	120,900
Timber and mineral properties	—	—	157,470	157,470
Real estate	—	—	69,070	69,070
Other investments	—	—	5,803	5,803
	<u>\$ 72,481</u>	<u>48,419</u>	<u>232,343</u>	<u>353,243</u>

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

For the year ended June 30, 2016, activity in investment assets valued at fair value based on unobservable values is as follows (in thousands):

Description	Timber and mineral properties	Real estate	Other investments	Total
Beginning balance	\$ 157,064	66,320	5,803	229,187
Total gains (losses) (realized/unrealized)	3,521	2,668	—	6,189
Dispositions	—	115	—	115
Reforestation	239	—	—	239
Depreciation/depletion	(3,354)	(33)	—	(3,387)
Ending balance	<u>\$ 157,470</u>	<u>69,070</u>	<u>5,803</u>	<u>232,343</u>

As of June 30, 2016, the USA Foundation has no outstanding commitments to purchase securities or other investments. Additionally, substantially all of the Foundation's equity securities at June 30, 2016 are considered readily liquid. Timber and mineral properties, real estate, and other investments are generally considered illiquid.

(5) Derivative Transactions – Swaptions

In January 2008, the University entered into a synthetic advance refunding of the outstanding Series 2004 and 2006 bonds with a counterparty. This transaction was effected through the sale of two swaptions by the University to the counterparty. The transactions resulted in an up-front payment to the University totaling \$9,328,000, which was recorded as a liability, in exchange for selling the counterparty the option to enter into an interest rate swap with respect to the Series 2004 and 2006 bonds in 2015 and 2016, respectively.

Objective of the Derivative Transaction

The objective of this transaction was to realize debt service savings currently from future debt refunding and create an economic benefit to the University.

Terms

A summary of the transactions is as follows:

Issue	Date of issue	Option expiration date	Effective date of swap	Termination date	Payment amount
Series 2004 bonds	2-Jan-08	16-Dec-13	15-Mar-14	15-Mar-24	\$ 1,988,000
Series 2006 bonds	2-Jan-08	1-Sep-16	1-Sep-16	1-Dec-36	7,340,000

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

As further discussed in note 10, in December 2013, the counterparty exercised its option with respect to the 2004 swaption. The University refunded its Series 2004 bonds, and issued the Series 2014-A variable rate bond. As a result of the exercise of the option by the counterparty, the swaption was terminated and the borrowing arising from the Series 2004 swaption of \$1,696,000 and the investment derivative (liability) of \$5,213,000 were written off and an investment loss of \$2,229,000 was recognized and reported in the statement of revenues, expenses and changes in net position for the year ended September 30, 2014. An original borrowing arising from the 2014 swap of \$9,138,000 was recognized and is reported, net of current year amortization, as long-term debt, in the amount of \$6,854,000, in the statement of net position at September 30, 2016.

As further discussed in note 10, in September 2016, the counterparty exercised its option with respect to the 2006 swaption. As a result of the exercise of the option by the counterparty, the swaption was terminated, the borrowing arising from the Series 2006 swaption of \$6,939,000 and the investment derivative of \$34,078,000 were written off. An original borrowing arising from the 2016 swap of \$41,017,000 was recognized and is reported, net of current year amortization, as long-term debt, in the amount of \$40,849,000, in the statement of net position at September 30, 2016.

Interest on the 2006 swaption was being accreted on, and added to the borrowings through the exercise date of the option, September 1, 2016. For the year ended September 30, 2016, \$344,000 was accreted and is included in interest expense in the statement of revenues, expenses, and changes in net position.

The change in the fair market value of the swaption derivative until the exercise date of September 1, 2016 is reported as a component of investment income (loss) in the statement of revenues, expenses and changes in net position. For the year ended September 30, 2016, the change in the fair value of the derivative was (\$11,611,000).

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Other long-term liabilities primarily consist of net pension liability, self-insurance liabilities, liabilities related to compensated absences, and the fair value of derivatives. Amounts due within one year are included in accounts payable, accrued liabilities and unrecognized revenue.

In September 2016, the University signed a six-year purchase agreement as a method of financing the purchase of certain hospital equipment for the Health System. See Note 9 for further disclosure.

In June 2016, the University entered into a variable interest rate revolving line of credit with Compass Bank to, among other reasons, fund certain capital improvements to various health care facilities for the Health System. The total amount available under the line of credit is \$30,000,000 and interest on the outstanding amounts is accrued at the rate of 65 percent of the London Interbank Offered Rate (LIBOR) plus 77 basis points. The maturity date is June 10, 2018. The amount outstanding at September 30, 2016 is \$50,000 and is reported in current portion of long-term debt in the current liabilities section of the statement of net position. See note 16(c) for further disclosure.

(8) Bonds Payable

Bonds payable consisted of the following at September 30, 2016 (in thousands):

University Tuition Revenue Bonds, Series 1999 Capital Appreciation, 4.70% to 5.25%, payable November 2011 through November 2018	\$ 21,382
University Tuition Revenue Refunding and Capital Improvement Bonds, Series 2006 5.00%, payable through December 2036	100,000
University Facilities Revenue and Capital Improvement Bonds, Series 2008, 3.00% to 5.00%, payable through August 2018	5,565
University Facilities Revenue and Capital Improvement Bonds, Series 2010, 3.81%, payable through August 2030	23,102
University Facilities Revenue Capital Improvement Bond, Series 2012-A, 2.92% payable through August 2032	21,025
University Facilities Revenue Capital Improvement Bond, Series 2012-B, 2.14% payable through August 2018	2,690
University Facilities Revenue Capital Improvement Bond, Series 2013-A, 2.83% payable through August 2033	28,261
University Facilities Revenue Capital Improvement Bond, Series 2013-B, 2.83% payable through August 2033	7,065
University Facilities Revenue Capital Improvement Bond, Series 2013-C, 2.78% payable through August 2025	8,315
University Facilities Revenue Refunding Bond, Series 2014-A, variable rate payable at 68% of LIBOR plus .73%, payable through March 2024	40,285
University Facilities Revenue Capital Improvement Bond, Series 2015, 2.47% payable through August 2030	5,250
University Facilities Revenue Refunding Bonds, Series 2016, 3.00% to 5.00% payable through November 2037	85,605
	<u>348,545</u>
Plus unamortized premium	20,640
Less unaccreted discount	(16)
Less unamortized debt issuance costs	(1,612)
	<u><u>\$ 367,557</u></u>

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Substantially all student tuition and fee and auxiliary revenues secure University bonds. Additionally, security for Series 2008 bonds includes Children's and Women's Hospital revenues in an amount not exceeding \$10,000,000. Series 1999 Capital Appreciation Bonds began maturing in November 2011. Series 1999 Bonds are not redeemable prior to maturity. Series 2006 Bonds begin maturing in December 2024 and are redeemable beginning in December 2016. Series 2008 Bonds began maturing in August 2009 and are redeemable beginning in September 2018. The Series 2010 Bond began maturing in August 2011 and is redeemable beginning in February 2020. The 2012-A and 2012-B Bonds began maturing in August 2013. The 2012-A Bond is redeemable beginning in August 2021. The 2012-B Bond is redeemable at any time. The 2013-A, 2013-B and 2013-C Bonds began maturing in August 2014 and are redeemable beginning in June 2023. The Series 2014-A bond began maturing in March 2015 and is redeemable at any time. The Series 2015 bond began maturing in August 2015 and is redeemable beginning in June 2020. The Series 2016 bonds will begin maturing in November 2018 and are redeemable in November 2026.

In September 2016, the University issued its University Facilities Revenue Refunding Bonds, Series 2016, with a face value of \$85,605,000. The proceeds from the series 2016 bonds were used to partially defease the Series 2008 bonds. The funds were deposited into escrow trust funds to provide for the subsequent repayment of the Series 2008 bonds when they are called in December 2018. Neither the asset of the escrow trust account, nor the defeased indebtedness is included in the accompanying statement of net position. The principal outstanding on all defeased bonds is \$93,540,000 at September 30, 2016. The remaining undefeased portion of the Series 2008 bonds at September 30, 2016 is \$5,565,000 and is included in current and noncurrent long-term debt on the accompanying statement of net position.

During the year ended September 30, 2016, the maturity value of the Capital Appreciation Bonds increased \$1,099,000, over the original principal amount of \$19,810,000, reflecting accretion of interest.

Approximately \$2,551,000 of proceeds from the issuance of the Series 2012 Bond remained unspent at September 30, 2016 and is included in restricted cash and cash equivalents in the 2016 statement of net position. These funds are restricted for capital purposes as outlined in the indenture.

Approximately \$1,638,000 of proceeds from the issuance of the Series 2013-A Bond remained unspent at September 30, 2016 and is included in restricted cash and cash equivalents in the 2016 statement of net position. These funds are restricted for capital purposes as outlined in the indenture.

Approximately \$1,452,000 of proceeds from the issuance of the Series 2015 Bonds remained unspent at September 30, 2016 and is included in restricted cash and cash equivalents in the 2016 statement of net position. These funds are restricted for capital purposes as outlined in the indenture.

The University is subject to arbitrage restrictions on its bonded indebtedness prescribed by the U. S. Internal Revenue Service. As such, amounts are accrued as needed in the University's basic financial statements for any expected arbitrage liabilities. At September 30, 2016, no amounts were due or recorded in the financial statements.

The University is subject to restrictive covenants related to its bonds payable. At September 30, 2016, management believes the University was in compliance with such financial covenants.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Debt Service on Long-Term Obligations

Total debt service (which includes bonds and notes payable) by fiscal year is as follows as of September 30, 2016 (in thousands):

	Debt service on note and bonds			
	Principal	Interest	Additional maturity	Total
2017	\$ 20,661	10,868	(782)	30,747
2018	17,524	12,024	(427)	29,121
2019	16,076	11,667	(49)	27,694
2020	15,077	11,355	—	26,432
2021	15,745	11,012	—	26,757
2022-2026	83,056	48,933	—	131,989
2027-2031	85,258	32,805	—	118,063
2032-2036	77,085	13,968	—	91,053
2037-2038	22,805	667	—	23,472
Subtotal	353,287	\$ 153,299	(1,258)	505,328
Plus (less):				
Additional maturity	(1,258)			
Unamortized bond premium	20,640			
Unaccreted bond discount	(16)			
Unamortized debt extinguishment costs	(1,612)			
Total	\$ 371,041			

The principal amount of debt service due on bonds at September 30, 2016 includes \$1,099,000 representing additional maturity value on Series 1999 Capital Appreciation Bonds. These bonds mature through 2019. Although this additional maturity is presented as principal on the debt service schedule above, it is also recognized as interest expense on an annual basis in the University's basic financial statements as it accretes.

(a) USA Research and Technology Corporation

Notes Payable

Notes payable consisted of the following at September 30, 2016 (in thousands):

Wells Fargo, promissory note, one-month LIBOR plus 0.85% (1.377% at September 30, 2016) payable through 2028	\$ 13,034
PNC Bank promissory note, 4.50%, payable through 2021	8,282
	<u>21,316</u>
	<u>\$ 21,316</u>

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

The note payable to Wells Fargo Bank, was incurred by the Corporation to acquire Buildings II and III in the USA Technology & Research Park and to provide funds for renovations and tenant finishing costs. The loan is a fully amortizing promissory note with a 20-year term. As more fully described below, the Corporation entered into a “receive-variable, pay-fixed” type of interest rate swap on the promissory note, which will yield a synthetic fixed interest rate of 6.1%. The promissory note payable is secured by an interest in the ground lease with respect to the parcels of land on which Buildings II and III stand, an interest in Buildings II and III, an interest in tenant leases for Buildings II and III, and an interest in income received from rental of Buildings II and III.

The promissory note payable to PNC Bank has a 10-year term and amortization is based on a 20-year term. The Corporation agreed not to transfer or encumber the buildings or its leasehold interest in the real estate on which the buildings stand. The promissory note payable is secured by an interest in tenant leases for Building I and the dialysis services building, and an interest in income received from rental of Building I and the dialysis services building.

In connection with each note, the University entered into an agreement with the lender providing that for any year in which the Corporation’s debt service coverage ratio is less than 1 to 1, the University will pay the Corporation rent equal to the amount necessary to bring the ratio to 1 to 1. The debt service coverage ratio is calculated by dividing the sum of unrestricted cash and cash equivalents at the beginning of the year (reduced by current year capital assets additions) and current year change in net position (determined without depreciation, amortization, and interest expense) by current year debt service. For fiscal 2016 the Corporation’s debt service coverage ratio was 1.24 to 1. Management believes the Corporation was in compliance with its debt covenants, including the debt service coverage ratio covenant, at September 30, 2016.

Debt Service on Long-Term Obligations

At September 30, 2016, total debt service by fiscal year is as follows (in thousands):

	Debt service on note and loan		
	Principal	Interest	Total
2017	\$ 1,062	1,151	2,213
2018	1,119	1,094	2,213
2019	1,194	1,020	2,214
2020	1,264	949	2,213
2021	8,111	670	8,781
2022–2026	6,084	1,773	7,857
2027–2028	2,482	137	2,619
Total	\$ 21,316	6,794	28,110

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Derivative Transaction

The Corporation is a party to a derivative with Wells Fargo Bank, the counterparty. The derivative is a “receive-variable, pay-fixed” interest rate swap entered into in connection with the promissory note to Wells Fargo Bank.

Objective of the derivative transaction. The Corporation utilizes the interest rate swap to convert its variable rate on the promissory note to a synthetic fixed rate.

The swap will terminate on May 1, 2028, when the loan matures. The notional amount of the swap will at all times match the outstanding principal amount of the loan. Under the swap, the Corporation pays the counterparty a fixed payment of 6.10% and receives a variable payment of the one-month LIBOR rate plus 0.85%. Conversely, the loan bears interest at the one-month LIBOR rate plus .85%. The Corporation paid \$651,955 under the interest rate swap agreement for the year ended September 30, 2016, which is reflected as an increase in interest expense.

Fair value. The interest rate swap had a negative fair value of \$(3,414,981) at September 30, 2016. The changes in fair value are reported as deferred outflows on the accompanying statement of net position since the interest rate swap is a hedging derivative instrument.

The fair value of the interest rate swap was estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero coupon bonds due on the date of each future net settlement.

Risks Associated with this Transaction

Interest rate risk. On the Corporation’s “receive-variable, pay-fixed” interest rate swap, as LIBOR decreases, the net payment on the swap increases.

Credit risk. As of September 30, 2016, the Corporation was not exposed to credit risk on the interest rate swap because it had a negative fair value. However, if interest rates change and the fair value of the derivative becomes positive, the Corporation would have a gross exposure to credit risk in the amount of the derivative’s fair value. The counterparty was rated Aa1 by Moody’s and AA- by S&P as of September 30, 2016.

Termination risk. The interest rate swap contracts use the International Swaps and Derivatives Association, Inc. Master Agreement, which includes standard default and termination events, such as failure to make payments, breach of agreement, and bankruptcy. At September 30, 2016, no events of default or termination had occurred. If the interest rate swap is terminated, interest rate risk associated with the variable rate debt would no longer be hedged. Also, if at the time of termination the interest rate swap had a negative fair value, the Corporation would be liable to the counterparty for a payment equal to the interest rate swap’s fair value. To allow the Corporation the maximum flexibility to manage the utilization of Buildings II and III while at the same time providing protection for the counterparty, the Corporation granted the counterparty a \$2,000,000 mortgage secured by an interest

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

in the ground lease with respect to the parcel of land on which Building II stands, an interest in Building II, a security interest in Building II tenant leases, and a security interest in income received from rental of Building II.

Derivative payments and hedged debt. As interest rates fluctuate, variable rate debt interest and net derivative payments will fluctuate. Using interest rates as of September 30, 2016, debt service requirements by fiscal year of the variable rate debt and net derivative payments, assuming current interest rates remain the same in the future, are as follows (in thousands):

	Variable rate loan		Interest rate swap, net	Total
	Principal	Interest		
2017	\$ 787	177	607	1,571
2018	832	167	573	1,572
2019	893	153	525	1,571
2020	949	141	482	1,572
2021	1,008	127	436	1,571
2022–2026	6,083	400	1,373	7,856
2027–2028	2,482	31	106	2,619
Total	\$ 13,034	1,196	4,102	18,332

(9) Capital Lease Obligation

In April 2015, the University signed a seven-year purchase agreement as a method of financing the purchase of certain computer software and hardware for the USA Health System. In July 2015, the University also signed a second seven-year purchase agreement as a method of financing additional laboratory software and hardware for the USA Health System. In September 2016, the University signed a six-year purchase agreement as a method of financing the purchase of certain hospital equipment for the USA Health System.

Future minimum capital lease payments at September 30, 2016, are as follows (in thousands).

Year ending September 30:	
2017	\$ 4,177
2018	3,402
2019	3,402
2020	3,402
2021	3,402
Thereafter	1,833
	19,618
Less amounts representing interest	(1,847)
Net minimum lease payments	\$ 17,771

These amounts are included in other long-term liabilities (and current portion thereof) in the accompanying statement of net position.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(10) Derivative Transaction – Interest Rate Swaps

The University is a party to a derivative with Wells Fargo the counterparty. As more fully described in note 5, in December 2013, Wells Fargo exercised its option with respect to the synthetic advance refunding of the Series 2004 bonds to enter into an interest rate swap agreement with the University with an effective date of March 15, 2014. The resulting derivative is a “receive-variable, pay-fixed” interest rate swap. As part of the overall plan of the synthetic refunding of the 2004 bonds, the University redeemed those bonds in April 2014 with proceeds from the 2014-A bond.

In September 2016, Wells Fargo exercised its option with respect to the synthetic advance refunding of the Series 2006 bonds to enter into an interest rate swap agreement with the University with an effective date of September 1, 2016. The resulting derivative is a “receive-variable, pay-fixed” interest rate swap. It is management’s intention to redeem the Series 2006 bonds with the proceeds from bonds to be issued in December 2016.

Objective of the transactions. As noted, both interest rate swaps were the result of the original January 2008 synthetic advance refunding of the Series 2004 and Series 2006 bonds. The objective of these transactions was to realize debt service savings currently from future debt refunding and create an economic benefit to the University.

The 2014 swap will terminate in March 2024, when the 2014-A bond matures. The notional amount of the swap will at all times match the outstanding principal amount of the bond. Under the swap, the University pays the counterparty a fixed semi-annual payment based on an annual rate of 4.9753% and receives on a monthly basis a variable payment of 68% of the one-month London Interbank Offered Rate (LIBOR) plus 0.25%. Conversely, the Series 2014-A bond bears interest on a monthly basis at 68% of the one-month LIBOR rate plus 0.73%.

The 2016 swap will terminate in December 2036, when the 2006 bond matures. The notional amount of the swap will at all times match the outstanding principal amount of the bond. Under the swap, the University pays the counterparty a fixed semi-annual payment based on an annual rate of 5% and receives on a monthly basis a variable payment of 68% of the one-month London Interbank Offered Rate (LIBOR) plus 0.25%.

Fair value. The 2014 interest rate swap had a negative fair value of approximately \$(9,138,000) at its inception. This amount, net of any amortization, is reported as a borrowing arising from the 2014 interest rate swap as long-term-debt in the amount of \$6,854,000 in the 2016 statement of net position. The change in the fair value of the swap, \$609,000, at September 30, 2016, is reported as a deferred inflow and derivative asset on the statement of net position since the interest rate swap is a hedging derivative instrument.

The 2016 interest rate swap had a negative fair value of approximately \$(41,017,000) at its inception. This amount, net of any amortization, is reported as a borrowing arising from the 2016 interest rate swap as long-term-debt in the amount of \$40,849,000 in the 2016 statement of net position. The change in the fair value of the swap, \$637,000, at September 30, 2016, is reported as a deferred inflow and derivative asset on the statement of net position since the interest rate swap is a hedging derivative instrument.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

The fair value of the interest rate swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement.

Risks Associated with this Transaction

Interest rate risk. As the LIBOR rate decreases, the net payment on the swap increases. This, however, is mitigated by the fact that a decline in the LIBOR rate will also result in a decrease of the University's interest payment on the Series 2014-A bond. The University's exposure is limited to 0.48% of the notional amount, the difference in the payment from the counterparty and the interest payment on the 2014-A bond.

Credit risk. As of September 30, 2016, the University was not exposed to credit risk on the interest rate swap because it had a negative fair value. However, if interest rates change and the fair value of the derivative becomes positive, the University would have a gross exposure to credit risk in the amount of the derivative's fair value. The counterparty was rated Aa2 by Moody's Investor Services and AA – by Standard & Poor's Ratings Services as of September 30, 2016.

Termination risk. The University may be required to terminate the swap based on certain standard default and termination events, such as failure to make payments, breach of agreement, and bankruptcy. As of the current date, no events of termination have occurred.

Derivative payments and hedged debt. As interest rates fluctuate, variable rate debt interest and net derivative payments will fluctuate. Using interest rates as of the current date and assuming those current interest rates remain the same in the future; debt service requirements for the 2014 interest swap payments, by fiscal year are as follows (in thousands):

	Variable rate loan		Interest rate swap, net	Total
	Principal	Interest		
2017	\$ 615	476	1,704	2,795
2018	640	513	1,634	2,787
2019	665	522	1,589	2,776
2020	6,925	493	1,411	8,829
2021	7,280	410	1,106	8,796
2022–2024	24,160	585	1,436	26,181
Total	\$ 40,285	2,999	8,880	52,164

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Management expects to enter into a debt refunding for the 2006 bonds in December 2016. Anticipated debt service requirements for the 2016 interest rate swap by fiscal year are as follows (in thousands):

	Variable rate loan		Interest rate swap, net	Total
	Principal	Interest		
2017	\$ —	895	1,957	2,852
2018	—	1,307	4,163	5,470
2019	—	1,387	4,083	5,470
2020	—	1,485	3,985	5,470
2021	—	1,575	3,895	5,470
2022–2036	100,000	19,146	36,505	155,651
Total	\$ 100,000	25,795	54,588	180,383

(11) Net Patient Service Revenue

The Health System has agreements with governmental and other third-party payers that provide for reimbursement at amounts different from their established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Health Systems' billings at established rates for services and amounts reimbursed by third-party payers.

A summary of the basis of reimbursement with major-third party payers follows:

Medicare – Substantially all acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic, and other factors. Additionally, the Health System is reimbursed for both direct and indirect medical education costs (as defined), principally based on per-resident prospective payment amounts and certain adjustments to prospective rate-per-discharge operating reimbursement payments. The Health System is generally reimbursed for certain retroactively settled items at tentative rates, with final settlement determined after submission of annual cost reports by the Health System and audits by the Medicare fiscal intermediary.

During fiscal year 2016, USA Medical Center received a final settled 2012 cost report. The USA Medical Center amended its 2013 cost report and it is still not audited or settled and we have received no status update on the report. The 2014 cost report was amended in December 2015. The 2015 cost report was initially filed in February 2016 and amended in August 2016. Both the 2014 and 2015 cost reports are in the audit process. The 2016 cost report was filed in February 2016.

During fiscal year 2016, USA Children's & Women's Hospital's 2012 cost report was reopened and resettled. The 2013 cost report was settled in October 2015 and re-opened in August 2016 per our request. The 2013, 2014 and 2015 cost reports are in the audit process.

Revenue from the Medicare program accounted for approximately 18% of the Health System's net patient service revenue for the year ended September 30, 2016.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Blue Cross – Inpatient services rendered to Blue Cross subscribers are paid at a prospectively determined per diem rate. Outpatient services are reimbursed under a cost reimbursement methodology. For outpatient services, the Health System is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by Blue Cross. The 2014 Blue Cross settlement for USA Children’s & Women’s Hospital was filed and reserved in 2015. It was repaid in installments during 2016. The 2015 Cost Finding was prepared and filed in 2016 with the anticipated settlement being fully reserved. As of September 30, 2016, the 2015 Cost Finding was not completed by BCBS. For 2016, the BCBS Retro Reserve is estimated to be a payable and reserved in the Retro Settlement Account. The Blue Cross 2015 retroactive settlement for USA Medical Center was filed in 2016 and a settlement was received in October 2016. For 2016, the BCBS Retro Reserve is estimated to be a payable and reserved in the Retro Settlement Account. Revenue from the Blue Cross program accounted for approximately 28% of the Health System’s net patient service revenue for the year ended September 30, 2016.

Medicaid – Inpatient services rendered to Medicaid program beneficiaries are reimbursed at all-inclusive prospectively determined per diem rates. Outpatient services are reimbursed based on an established fee schedule.

The Health System qualifies as Medicaid essential providers and, therefore, also receive supplemental payments based on formulas established by the Alabama Medicaid Agency. There can be no assurance that the Health System will continue to qualify for future participation in this program or that the program will not ultimately be discontinued or materially modified.

Revenue from the Medicaid program accounted for approximately 26% of the Health System’s net patient service revenue for the year ended September 30, 2016.

Other – The Health System has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The bases for payments to the Health System under these agreements include discounts from established charges and prospectively determined daily and case rates.

The composition of net patient service revenue for the year ended September 30, 2016 follows (in thousands):

Gross patient service revenue	\$	791,625
Less provision for contractual and other adjustments		(347,757)
Less provision for bad debts		(83,211)
	\$	360,657

Changes in estimates related to prior cost reporting periods resulted in an increase of approximately \$5,638,000 in net patient service revenue for the year ended September 30, 2016.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(12) Defined Benefit Cost Sharing Pension Plan

Employees of the University are covered by a cost sharing multiple-employer defined benefit pension plan administered by the TRS.

Plan description

The TRS was established in September 1939, under the provisions of Act 419 of the Legislature of 1939 for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by State-supported educational institutions. The responsibility for the general administration and operation of the TRS is vested in its Board of Control. The TRS Board of Control consists of 15 trustees. The plan is administered by the Retirement Systems of Alabama (RSA). Title 16-Chapter 25 of the code of Alabama grants the authority to establish and amend the benefit terms to the TRS Board of Control. The Plan issues a publicly available financial report that can be obtained at www.rsa-al.gov.

Benefits provided

State law establishes retirement benefits as well as death and disability benefits and any ad hoc increase in postretirement benefits for the TRS. Benefits for TRS members vest after ten years of creditable service. Tier 1 TRS members who retire after age sixty with ten years or more of creditable service or with twenty-five years of services (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or formula method, with the member receiving payment under the method that yields the higher monthly benefit. Under the formula method, members of the TRS are allowed 2.0125% of their average final compensation (highest three of the last ten years) for each year of service.

Act 377 of the Legislature of 2012 established a new tier of benefits (Tier 2) for members hired on or after January 1, 2013. Tier 2 TRS members are eligible for retirement after age sixty-two with ten years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 2 members of the TRS are allowed 1.65% of their average final compensation (highest five of the last ten years) for each year of service. Members are eligible for disability retirement if they have ten years of credible service, are currently in-service, and determined by the RSA Medical Board to be permanently incapacitated from further performance of duty. Preretirement death benefits are calculated and paid to the beneficiary based on the member's age, service credit, employment status, and eligibility for retirement.

Contributions

Covered members of the TRS contributed 5% of earnable compensation to the TRS as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, covered members of the TRS were required by statute to contribute 7.25% of earnable compensation. Effective October 1, 2012, covered Tier 1 members of the TRS are required by statute to contribute 7.50% of earnable compensation. Certified law enforcement, correctional officers, and firefighters of the TRS contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, certified law enforcement, correctional officers, and firefighters of the TRS were required by statute to contribute 8.25%

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

of earnable compensation. Effective October 1, 2012, certified law enforcement, correctional officers, and firefighters of the TRS are required by statute to contribute 8.50% of earnable compensation.

Tier 2 covered members of the TRS contribute 6% of earnable compensation to the TRS as required by statute. Tier 2 certified law enforcement, correctional officers, and firefighters of the TRS are required by statute to contribute 7% of earnable compensation.

Participating employers' contractually required contribution rates were 11.71% of annual pay for Tier 1 members and 11.08% of annual pay for Tier 2 members. These required contribution rates are a percent of annual payroll, actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the University were \$22,691,000 for the year ended September 30, 2016.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the University reported a liability of \$329,294,000 for its proportionate share of the collective net pension liability. The collective net pension liability was measured as of September 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2014. The University's proportion of the collective net pension liability was based on the employer's shares of contributions to the pension plan relative to the total employer contributions of all participating TRS employers. At September 30, 2015, the University's proportion was 3.185471%, which was a decrease of 0.136877% from its proportion measured as of September 30, 2014.

For the year ended September 30, 2016, the University recognized pension expense of approximately \$20,116,000. At September 30, 2016, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Net difference between projected and actual earnings on pension plan investments	\$ 21,827,000	—
Difference between expected and actual experience	—	1,806,000
Changes in proportion and differences between employer contributions and proportionate share of contributions	—	20,962,000
Employer contributions subsequent to measurement date	22,691,000	—
	\$ 44,518,000	22,768,000

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Approximately \$22,691,000 reported as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2017. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30,		
2017	\$	(1,987,000)
2018		(1,987,000)
2019		(1,987,000)
2020		5,596,000
2021		(576,000)
		<u>(576,000)</u>
	\$	<u>(941,000)</u>

Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of September 30, 2015 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Investment rate of return*	8.00%
Projected salary increases	3.50% - 8.25%

*Net of pension plan investment expense

The actuarial assumptions used in the actuarial valuation as of September 30, 2015, were based on the results of an investigation of the economic and demographic experience for the TRS based upon participant data as of September 30, 2010. The Board of Control accepted and approved these changes on January 27, 2012, which became effective at the beginning of the fiscal year 2012. Mortality rates for TRS were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA projected to 2015 and set back one year for females.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rate of return for each major asset class are as follows:

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

	Target Allocation	Long-term Expected Rate of Return*
Fixed Income	25.00%	5.00%
U. S. Large Stocks	34.00	9.00
U. S. Mid Stocks	8.00	12.00
U. S. Small Stocks	3.00	15.00
International Developed Market Stocks	15.00	11.00
International Emerging Market Stocks	3.00	16.00
Real Estate	10.00	7.50
Cash	2.00	1.50
	100.00%	

* Includes assumed rate of inflation of 2.50%

Discount Rate

The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate

The following table presents the University's proportionate share of the net pension liability calculated using the discount rate of 8%, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (7%) or 1-percentage point higher (9%) than the current rate (in thousands):

	1% Decrease (0.07)%	Current Rate (8.00)%	1% Increase (9.00)%
University's proportionate share of collective net pension liability	\$ 435,633,000	\$ 329,294,000	\$ 239,104,000

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Report for the fiscal year ended September 30, 2015. The supporting actuarial information is included in the GASB Statement No. 67 Report for the TRS prepared as of September 30, 2015. The auditors' report dated October 4, 2016 on the total pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the sum of all participating entities as of September 30, 2015 along with supporting schedules is also available. The additional financial and actuarial information is available at www.rsa-al.gov.

(13) Other Employee Benefits

(a) Other Pension Plans

Employees of the University also participate in a defined contribution pension plan. The defined contribution pension plan covers certain academic and administrative employees, and participation by eligible employees is optional. Under this plan, administered by Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF), contributions by eligible employees are matched equally by the University up to a maximum of 3% of current annual pay. The University and the employees each contributed \$711,000 in 2016, representing 350 employees participating in this Plan.

All employees of HCM working at least half time are eligible to participate in a defined contribution pension plan. Under this plan, contributions by eligible employees are matched equally by HCM up to a maximum of 5% of current annual pay. HCM and the employees contributed \$3,900,000 in 2016 representing 1,425 employees participating in this plan. University employees as of September 30, 2010 who later transfer to HCM are immediately vested in the plan. All other employees do not vest until they have held employment with HCM for thirty-six months; at which time they become 100% vested in the plan.

(b) Compensated Absences

Regular University employees accumulate vacation and sick leave and hospital and clinical employees accumulate paid time off. These are subject to maximum limitations, at varying rates depending upon their employee classification and length of service. Upon separation of employment, employees who were hired before January 1, 2012 are paid all unused accrued vacation at their regular rate of pay up to a maximum of two times their annual accumulation rate. Employees hired after January 1, 2012 are not eligible for payment of unused accrued vacation or PTO hours upon separation of employment. The accompanying statement of net position includes accruals for vacation pay and paid time off of approximately \$15,158,000 at September 30, 2016. The current portion of the accrual is included in accounts payable and accrued liabilities and the noncurrent portion is included in other long term liabilities in the accompanying basic financial statements. No accrual is recognized for sick leave benefits since no terminal cash benefit is available to employees for accumulated sick leave.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(c) Other Postretirement Employee Benefits

As the provider of postretirement benefits to state retirees, the state is responsible for applying GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. In September 2003, the State of Alabama Legislature passed legislation that requires all colleges and universities to fund the healthcare premiums of its participating retirees. In prior years, such costs have been paid by the State. Beginning in October 2003, the University was assessed a monthly premium by the Public Education Employees' Health Insurance Plan (PEEHIP) based on the number of retirees in the system and an actuarially determined premium. During the year ended September 30, 2016, the University's expense related to PEEHIP was \$9,184,000.

(14) Risk Management

The University, USAHSF, HCM and SAMSF participate in the professional liability trust fund and the University, USAHSF, HCM, SAMSF and the Corporation participate in the general liability trust fund. Both funds are administered by an independent trustee. These trust funds are revocable and use contributions by the University and USAHSF, together with earnings thereon, to pay liabilities arising from the performance of its employees, trustees and other individuals acting on behalf of the University. If the trust funds are ever terminated, appropriate provision for payment of related claims will be made and any remaining balance will be distributed to the participating entities in proportion to contributions made.

As discussed in note 1, the PLTF and GLTF are blended component units of the University, as defined by GASB Statement No. 14, and as such are included in the basic financial statements of the University for the year ended September 30, 2016. Claims and expenses are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Those losses include an estimate of claims that have been incurred but not reported and the future costs of handling claims. These liabilities are generally based on actuarial valuations and are reported at their present value.

The University and HCM participate in a self-insured health plan, administered by an unaffiliated entity. Administrative fees paid by the University for such services were approximately \$2,019,000 in 2016. Contributions by the University and its employees, together with earnings thereon, are used to pay liabilities arising from healthcare claims. It is the opinion of University administration that plan assets are sufficient to meet future plan obligations.

The changes in the total self-insurance liabilities for the year ended September 30, 2016 for the PLTF, GLTF and health plan are summarized as follows (in thousands):

Balance, beginning of year	\$	23,130
Liabilities incurred and other additions		79,226
Claims, administrative fees paid and other reductions		(62,775)
Balance, end of year	\$	39,581

These amounts are included in other long-term liabilities (and current portion thereof) in the accompanying statement of net position.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(15) Other Related Party

SAMSF is a not-for-profit corporation that exists for the purpose of promoting education and research at the University. At September 30, 2016, SAMSF had total assets of \$13,884,000, net assets of \$10,935,000, and total revenues of \$3,544,000. SAMSF reimburses the University for certain administrative expenses and other related support services. Total amounts received for such expenses were approximately \$775,000 in 2016, and are reflected as private grants and contracts in the accompanying statement of revenues, expenses, and changes in net position.

(16) Commitments and Contingencies

(a) Grants and Contracts

At September 30, 2016, the University had been awarded approximately \$25,411,000, in grants and contracts for which resources had not been received and for which reimbursable expenditures had not been made for the purposes specified. These awards, which represent commitments of sponsors to provide funds for research or training projects, have not been reflected in the accompanying basic financial statements as the eligibility requirements of the award have not been met. Advances include amounts received from grant and contract sponsors which have not been earned under the terms of the agreements and, therefore, have not yet been included in revenues in the accompanying basic financial statements. Federal awards are subject to audit by Federal agencies. The University's management believes any adjustment from such audits will not be material.

(b) Letters of Credit

In connection with the Health System's participation in the State of Alabama Medicaid Program, the University has established a \$77,000 irrevocable standby letter of credit with Wells Fargo. The Alabama Medicaid Agency is the beneficiary of this letter of credit. No funds were advanced under this letter during the year ended September 30, 2016.

In connection with RCO participation in the Alabama Medicaid Agency's Health Home Regional Care Organization Program, HCM has established a \$1,689,000 irrevocable standby letter of credit with Hancock Bank. The Alabama Medicaid Agency is the beneficiary of this letter of credit. No funds were advanced under this letter during the year ended September 30, 2016. As a requirement of the issuance of this letter of credit, HCM is required to establish collateral in the same amount as the letter of credit. As such, a collateral account in the amount of \$1,689,000 has been established and is included in restricted cash and cash equivalents on the statement of net position as of September 30, 2016.

(c) Lines of Credit

In March 2015, the University entered into a variable interest rate revolving line of credit with Compass Bank to, among other reasons, fund the acquisition of certain real property by the Health System. The total amount available under the line of credit is \$5,000,000 and interest on the outstanding amounts accrue at the rate of the London Interbank Offered Rate (LIBOR) plus 1.00% with a maturity date of April 15, 2017. The amount outstanding at September 30, 2016 is \$3,434,000 and is reported as debt in the current liabilities section of the statement of net position as of September 30, 2016.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

In March 2016, the University entered into a variable interest rate revolving line of credit with Compass Bank to fund certain capital improvements of the Health System. The total amount available under the line of credit is \$30,000,000 and interest on the outstanding amounts accrue at the rate of sixty-five percent of the London Interbank Offered Rate (LIBOR) plus seventy-seven basis points with a maturity date of June 10, 2018. The amount outstanding at September 30, 2016 is \$50,000 and is reported as debt in the current liabilities section of the statement of net position as of September 30, 2016.

(d) *HCM Commitment*

In September 2016, HCM entered into a commitment to the RCO. This letter commits HCM to contribute cash or other assets to the RCO only upon the execution of a contract between the RCO and the Alabama Medicaid Agency to provide medical services to Medicaid patients on a capitated basis. The amount of the commitment is \$6,644,000. As of September 30, 2016, no amounts have been paid to the RCO.

(e) *Federal Program Review*

In November 2014, the University was the subject of a program review conducted by the U. S. Department of Education. The program review assessed the University's administration of Title IV, HEA programs for the 2013-2014 fiscal year and the first two months of the 2015 fiscal year. A draft report has been subsequently received by the University and a response to this draft has been sent to the U.S. Department of Education. No final report has been issued. Management believes that there will be no liability to the University beyond that which is reported in the financial statements.

(f) *Litigation*

Various claims have been filed against the University alleging discriminatory employment practices and other matters. University administration and legal counsel are of the opinion the resolution of these matters will not have a material effect on the financial position or the statement of revenues, expenses, and changes in net position of the University.

(g) *Rent Supplement Agreements*

The University has entered into two irrevocable rent supplement agreements with the Corporation and a financial institution. The agreements require that, in the event the Corporation fails to maintain a debt service coverage ratio of one to one with respect to all of its outstanding indebtedness, the University will pay to the Corporation any and all rent amounts necessary to cause the Corporation's net operating income to be equal to the Corporation's annual debt service obligations (see note 8). As of September 30, 2016, no amounts were payable pursuant to these agreements.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Basic Financial Statements

September 30, 2016

(h) USA Research and Technology Corporation Leases

The Corporation leases space in Building I to three tenants under operating leases. One lease has a 5-year initial term expiring in October 2018 with two 5-year renewal options. Another lease has a 10-year initial term expiring in May 2021, an option to cancel at the end of 6 years, and two 5-year renewal options. The third lease has a 67-month initial term expiring in December 2018 with no renewal options.

Space in Buildings II and III is leased under operating leases to the University and various other tenants. These leases have terms varying from month-to-month to ten years.

The Corporation leases from the University the third floor of a campus building. Located on that floor is the Coastal Innovation Hub (the Hub), a technology incubator, which currently houses three tenants with month-to-month leases.

Under leases for Buildings I, II, and III, the Corporation must pay all operating expenses of the buildings, including utilities, janitorial, maintenance, property taxes, and insurance. Tenants will reimburse the Corporation for such expenses only as the total expenses for a year increase over the total expenses for the base year of the lease (the Corporation's fiscal year beginning after the date the lease is signed). Under Hub leases, the Corporation must pay all operating expenses of the space, without reimbursement from tenants.

Space under lease to the University was 40,345 square feet at September 30, 2016.

The Corporation owns a building located on the premises of the USA Medical Center which is leased to a single tenant. The Corporation paid for construction of the building shell and land improvements while the tenant paid for the cost of finishing the building's interior. The lease has a ten year initial term expiring in March 2020 with three five-year renewal options. Under the lease, the tenant must also pay for utilities, taxes, insurance, and interior repairs and maintenance. The Corporation is responsible for repairs and maintenance to the exterior and HVAC system.

The Corporation, as lessor, had three ground leases in place at September 30, 2016. One lease is for a 40-year initial term expiring in October 2046 with 20-year, and 15-year renewal options. The second lease is for a 30-year initial term expiring in October 2036 with four 5-year renewal options. The third lease has a 38.5-year initial term expiring in September 2046 with 20-year and 15-year renewal options.

(19) Recently Issued Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB Statement No. 75 changes accounting and financial reporting for entities which participate in plans providing postemployment benefits other than pensions and will be effective for the University's year ending September 30, 2018. In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This statement requires governments that enter into tax abatement agreements to disclose specific information about the agreements. This statement will be effective for the University beginning with the fiscal year ending September 30, 2017. In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. This statement amends Statement No. 68 to exclude pensions that are not governmental pension plans and establishes requirements for the recognition and measurement of non-governmental pension plans that are offered to government employees. Also in December 2015, the GASB issued Statement No. 79, *Certain External Investment Pools and Pool Participants*. This statement addresses accounting and financial reporting for certain external investment pools and pool participants. It establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial statement purposes. Both statements No. 78 and 79 will be effective for the University beginning with the fiscal year ending September 30, 2017. In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units*. This statement will be effective for the University of South Alabama (USA) beginning with the fiscal year ending September 30, 2017. Statement 80 amends the blending requirements for financial statement presentation and requires the blending of a component unit that is incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements* and Statement No. 82, *Pension Issues*. Both statements will be effective for the University of South Alabama (USA) beginning with the fiscal year ending September 30, 2017. Statement No. 81 changes the reporting requirements for gifts given to the University in which USA is a beneficiary of a split-interest agreement. Statement No. 82 was issued to address certain issues that have been raised from Statements No. 67, 68 and 73 and clarifies the presentation of payroll-related measures in the required supplementary information, the selection of assumptions and treatment of deviations from the guidance, and the classification of payments made by employers to satisfy employee contribution requirements.

The effect of the implementation of GASB Statements Nos. 75, 80, 81 and 82 on the University has not yet been determined.

Statement Nos. 77, 78, and 79 will not have an impact on the University's financial statements.

(20) Subsequent Events

In November 2016, the board of the RCO approved a resolution to cease its active pursuit of full regional care organization certification from Alabama Medicaid Agency (the Agency) along with its efforts to enter into an at-risk contract with the Agency to provide regional care organization services to Medicaid beneficiaries. The RCO will continue to consider the possibility of pursuing full regional care organization status of entering into an at risk contract with the agency in the future should that become a viable option.

Notes to Required Supplementary Schedules

September 30, 2016

(1) Summary of Cost Sharing Pension Plan Provisions and Assumptions

Employees of the University of South Alabama (the University) are covered by a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement System (TRS) of the State of Alabama.

(a) Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of September 30, 2015 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Investment rate of return*	8.00
Projected salary increases	3.50–8.25

*Net of pension plan investment expense

The actuarial assumptions used in the actuarial valuation as of September 30, 2015, were based on the results of an investigation of the economic and demographic experience for the TRS based upon participant data as of September 30, 2010. The Board of Control accepted and approved these changes on January 27, 2012, which became effective at the beginning of the fiscal year 2012.

Mortality rates for TRS were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA projected to 2015 and set back one year for females. The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation.

(b) Discount Rate

The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Indicates major program

See accompanying independent auditors' report.

See accompanying notes to schedule of expenditures of federal awards.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Schedule of Expenditures of Federal Awards

September 30, 2016

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the University of South Alabama (the University) and is presented on the accrual basis of accounting. The information in the Schedule is presented in accordance with the requirements of *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR 200 (Uniform Guidance)*. Therefore, some amounts presented in the Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

(2) Campus-Based Loan Programs

Outstanding campus-based federal loans made by the University are included in notes receivable in the University's 2016 statement of net position and consist of the following loan programs:

	CFDA #		Outstanding amount at September 30, 2016	Amount advanced in 2016
Federal Perkins Loan Program	84.038	\$	3,369,816	494,750
Nurse Faculty Loan Program	93.264		595,669	115,872
Nurse Faculty Loan Program ARRA	93.408		24,649	—
			\$ 3,990,134	610,622

For the Federal Perkins Loan Program (FPLP) the accompanying schedule of expenditures of federal awards includes the beginning of the year balance of loans outstanding under the FPLP and current year FPLP loan advances to students totaling \$3,511,372 and \$494,750, respectively. No administrative cost allowance was claimed related to the FPLP during 2016.

(3) Contingencies

The University's federal programs are subject to financial and compliance audits by grantor agencies which may result in disallowed expenditures and affect the University's continued participation in specific programs.

(4) Federal Direct Student Loans (CFDA #84.268)

The University's Federal Direct Student Loan Program (Direct Loan) included in the Schedule represents loans advanced to students of the University during fiscal year 2016, which were not originated by the University. Accordingly, Direct Loan amounts are not reflected in the University's basic financial statements. It is not practicable to determine the balance of loans outstanding to students and former students of the University under these programs as of September 30, 2016.

UNIVERSITY OF SOUTH ALABAMA
(A Component Unit of the State of Alabama)

Notes to Schedule of Expenditures of Federal Awards

September 30, 2016

During the year ended September 30, 2016, the University advanced to students the following amounts of new loans under Direct Loan Programs:

	<u>Amount advanced</u>
Stafford loans	\$ 22,240,126
Unsubsidized Stafford loans	77,619,279
Parent Loans for Undergraduate Students	<u>30,051,489</u>
Total	<u>\$ 129,910,894</u>

(5) Matching

Under the Federal Work-Study Program and the Federal Supplemental Education Opportunity Grant Program, the University matched \$60,223 and \$151,358, respectively, in funds awarded to students for the year ended September 30, 2016 in addition to the Federal share of expenditures included in the Schedule.

(6) Indirect Cost Rate

For the year ended June 30, 2016, the University did not elect to use the 10% De Minimus Indirect Cost Rate permitted by Uniform Guidance as a negotiated indirect cost rate existed on all grants where indirect costs are applicable.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees
University of South Alabama:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the basic financial statements of the University of South Alabama, a component unit of the State of Alabama, (the University) and its aggregate discretely presented component units as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated November 15, 2016. Our report includes a reference to other auditors who audited the financial statements of the University of South Alabama Foundation, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the University of South Alabama Foundation, the USA Research and Technology Corporation, and the Gulf Coast Regional Care Organization were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given those limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees
University of South Alabama:

Report on Compliance for Each Major Federal Program

We have audited the University of South Alabama (the University)'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended September 30, 2016. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements to Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2016.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the basic financial statements of the University and its aggregate discretely presented component units as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the University's basic financial statements. We issued our report thereon dated November 15, 2016, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of

expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.
